ADSoftware to Exhibit at Paris Air Show,
Hall 4 - Alley D – Booth 134, Jun 15 - 21, 2015

ADSoftware, the Maintenance, Repair & Overhaul (MRO) IT specialists have today announced their participation in the most prestigious aerospace trade fair, the 51st Paris Air Show, which will take place at the Le Bourget exhibition centre from 15 to 21 June 2015. The MRO software company will be launching new innovative modules for their flagship AirPack suite.

On show will be the latest Maintenance and Engineering (M&E) / MRO technology advances from ADSoftware plus plug-ins and add-ons that can significantly enhance any Maintenance Information System. In brief these include **ADvisair**, a new generation tool for Maintenance Reserves calculation used both at the beginning and the end of an aircraft or engine lease; **AD Search** for advanced indexing to easily find any type of scanned technical documents; **AD Watcher**, an innovative solution to manage incoming technical documentation, including the "EASA***** plugin" to upload and easily manage Airworthiness Directives (AD's) and **AD Rescue**, a sophisticated data and application backup solution.

*EASA: European Aviation Safety Agency

About ADSoftware

ADSoftware is a seventeen year old IT company based in France, with offices in Thailand, Brazil and South Africa. Specialising in solutions dedicated to the aviation industry, ADSoftware counts 54 clients worldwide. The strength of ADSoftware is the accessibility of its products which are Microsoft Windows® ready, web-enabled, and multilingual. The company provides 24/7 online technical support.
The company has developed AirPack a modular ERP (Enterprise Resource Planning) suite that includes six modules organised around a single database. Each module has its own specificities. AirTime is a dedicated tool for Fleet management & CAMO activities (Continuing Airworthiness Management Organisations), AirStock assist with Inventory control & Logistic, AirDoc is the documentation management module, AirUser handles the security management, AirStat allows reliability and statistic reports and AirWork time-tracking software.
ADSoftware has also developed DailyPack a package of two integrated modules, DailyReport and DailyQual, used by military, police and rescue flying operations. It is a solution dedicated to recording and managing all kinds of missions, and to follow-up on skills and qualifications of pilots and aircraft mechanics.
In January 2015, ADSOFTWARE was nominated as a Finalist in the Air Transport News 2015 Awards as IT Company of the year. In February 2015, ADSoftware was selected for the second time as a finalist in the European IT & Software Excellence Awards 2015. The company was shortlisted in the SME Solution of the Year category.
